

A NEW NORMAL

"Now that we know what's possible, there's no way we're going back, even after COVID. Our digital way of operating is definitely the new normal."

NO MANUAL CHASING

"The system does the chasing for us until everything we need is submitted — from payments to form completions, permissions or medical data."

1 CENTRAL PLACE

SAS systemized and standardized its operational processes, forms and data collection across both schools in one place.

FAST AND FLEXIBLE

"During the pandemic, things changed at a moment's notice. Operoo automated the digital flow of information between the school and its families remotely, safely and quickly."

ANYTIME ACCESS TO MEDICAL DATA

"Supervising staff members access student medical and emergency information via their cell phones."

BETTER RESPONSE RATES

"When we distribute a form, request or piece of communication now, recipients can instantly view and respond to it on their device of choice."

15 - 0

Start-of-year student enrollments went from involving 15 paper forms to zero.

50% INCREASE

By automating its Program Enhancement Contribution workflow, SAS increased parent contributions from \$40,000 per year to \$60,000 in two months.

FLORIDA TESTING SCHEDULE

"Without Operoo, I'm not sure how we would have managed this process. With it, we set-up a process in 10-minutes and started receiving responses in five."

CONTACTLESS DEVICE LOAN SCHEME

"Without Operoo, attempting to do something like this would have been absolute chaos. We're so happy with Operoo and our process automation journey to date."
